

Optimising Soil Fertility Within Your Budget

A free hands-on field day with Professor Jim Moir from Lincoln University

Join the Thomsons Catchment Project for a practical learning event focused on getting better results from your fertiliser without blowing the budget. Whether you're looking to improve pasture or crop production, this day is all about making smarter, more cost-effective decisions for your land.

What's on the agenda:

- ▶ **Engaging indoor session:** Learn about soil fertility and fertiliser management – are you getting the best bang for your buck?
- ▶ **Real-world paddock case study:** Join Professor Jim Moir and local farmer Mike Williams as they explore soil fertility decisions and opportunities to boost production.
- ▶ **Expert advice you can use:** Get insights from one of New Zealand's top soil fertility experts on how to maximise your returns and potentially lower fertiliser costs – one of farming's biggest expenses.

Please bring your gumboots and dress for the weather.

Free event – all welcome! Don't miss this chance to level up your fertiliser know-how and boost productivity.

Guest Speaker:
Professor Jim Moir

LUNCH ON US!

Monday 5 May 2025

11am – 2.30pm

The event kicks off at Omakau Golf Club, then heads to a nearby local farm
